

PRODUCT SHEET

EGG BOILER CO60

Specifications

Reference	CO 60
Dimensions	215 x 430 x 255 mm
Weight	4.5 Kgs
Power	1.2 KW
Voltage	230 V
Capacity	10 eggs

Description

Essential for your breakfast buffets, this Gastronome eggs boiler GN 1/3 allows your customers to boil their own eggs for breakfast according to their cooking preference.

Cooking capacity: 6 eggs (on demand more baskets available for a capacity of 10 eggs).

You do not need any more to rearm the safety thermostat in case of overheating or lack of water. This eggs boiler works like a Bain Marie: the heating element underneath the water container, the aluminium plate for the transfer of the heat on the whole bottom of container and the temperature limitation to cook in safe.

Easy tidying thanks to the lid

Equipment : Thermostat, temperature limiter, on/off press button, pilot light.

Delivered with 6 numbered baskets.

Made in France
