

Certificate of aptitude for food contact

We, the undersigned, COMATEC, certify that the food packaging that we manufacture conforms to the regulations in effect relative to materials and objects destined to come into contact with foodstuffs, notably:

In the EEU:

- **Directive 94/62/EC** of 20 December 1994 on packaging and packaging waste
- **Directive 2002/72/CE** of 6 August 2002 concerning plastic materials and objects destined to come into contact with foodstuffs
- **Directive 2004/1/CE** of 6 January 2004 which modified Directive 2002/72/CE concerning suspension of the usage of azidocarbonamide as a blowing agent
- **Directive 2004/19/CE** of 1 March 2004 which modified Directive 2002/72/CE concerning plastic materials and objects destined to come into contact with foodstuffs
- **Directive 2005/79/CE** of 18 November 2005 which modified Directive 2002/72/CE concerning plastic materials and objects destined to come into contact with foodstuffs
- **Regulation No. 1935/2004** of 27 October 2004 concerning materials and objects destined to come into contact with foodstuffs
- **Regulation No. 1895/2005** of 18 November 2005 concerning the limitation of the usage of certain epoxy derivatives in materials and objects destined to come into contact with foodstuffs
- **Regulation (EC) No 2023/2006** of 22 December 2006 on good manufacturing practice for materials and articles intended to come into contact with food

In France:

- **Decree No. 92-631** of 8 July 1992 relative to materials and objects destined to come into contact with foodstuffs, products and beverages for the consumption of humans or animals, modified by **Decree No. 2007-766** of 10 May 2007
- **Decree of 29 March 2005** relative to plastic materials and objects destined to come into contact with foodstuffs, products and beverages

Packaging innovant pour la restauration

- **Decree of 9 August 2005** modifying the Decree of 2 January 2003 relative to plastic materials and objects destined to come into contact with foodstuffs, products and beverages

- **Decree of 19 October 2006** modifying the Decree of 2 January 2003 relative to plastic materials and objects destined to come into contact with foodstuffs, products and beverages

- **Commission Regulation (EU) N°.10/2011** on plastic materials & articles intended to come into contact with food.

The packaging manufactured respects the migration limits:

Overall Migration Limit: 10 mg/dm² or 60 mg/kg of food

Specific Migration Limit: None

In addition, our packaging does not contain any products or additives which are prohibited by Directive 2002/72/CE and its modifications.

The material and/or object referenced above, under normal and predictable conditions of use leading to no acceptable modification of the composition of the foodstuff, is suitable for:

- | | |
|---|--------------------------|
| - Contact with all types of food | X |
| - or only: | |
| * dry contact | <input type="checkbox"/> |
| * moist contact / aqueous products | <input type="checkbox"/> |
| * oily contact | <input type="checkbox"/> |
| * acidic contact | <input type="checkbox"/> |
| * alcoholic contact | <input type="checkbox"/> |
| * frozen contact | |
| Freezing and thawing in packaging | <input type="checkbox"/> |
| Freezing and thawing outside of packaging | <input type="checkbox"/> |
| * other contact (to be specified): | <input type="checkbox"/> |
| - Heat processing including cooking | <input type="checkbox"/> |
| If yes, indicate the temperature | |

However, in that COMATEC does not control packaging operations, does not have knowledge about foodstuffs and/or the exact destination for which the supplied packaging is used, the present certificate does not exonerate the user from verifying that the packaging, under the expected conditions of use (packaging in contact with foodstuffs), conforms to the requirements: overall migration, specific migration, restrictions and/or specifications.

It is specifically stated that it is the responsibility of the user to verify the compatibility of the packaging with the foodstuff and, more particularly, the eventual impact that
